

SUPPORT LIFEWELL™

Help for those who need it most

LifeWell™ was conceived in response to an evident lack of quality affordable support & recovery programs for people on low incomes during and / or following significant life crises.

While **LifeWell™** is accessed by persons of all ages facing vulnerable life experiences, or simply seeking ethical primary care, our prime concern is to assist those who have limited access to care, support, and personal developmental services - by virtue of economic or social disadvantage.

The need

Many people who *could* benefit from **primary care services**, simply cannot get access because of no health insurance cover, and the high cost of these services. As a result many **miss out** on care and support that would help reduce stress, develop life skills, promote personal health, and enable safe recovery from life challenges.

LifeWell™ has been established to **ensure** that **ALL** eligible clients *regardless* of financial capacity have the chance to move forward in healthy growth and recovery in a safe, ethical, and caring environment. To ensure this, EVERY LifeWell service and course is offered at below market rates AND **subsidised** care is available for eligible people where affordability is a genuine issue.

This subsidy care is assisted by means of an active partnership with **New Beginnings** - a low cost goods store - crn Hamstead Road & Francis ave Broadview, South Australia.

- ❖ However to ensure the services can continue to applied to those in most need in a sustained way, LifeWell™ gratefully receives **donations** from those who recognise the value of this unique approach to care for ALL.

LifeWELL™ is a non profit service.

WILL YOU CONSIDER SUPPORTING OUR CARE ?
